Mike Craig, Director of Schools

McKinney-Vento Transportation Options

Transportation Options:

Walk Zone: Students living within the “walking zones” within *1 mile*, will continue to walk to school like other students living within the same boundary limitations.

School Bus Stops: Students who *reside close enough to the pre-established school bus route* (or those who have transportation from their place of residence to a nearby bus stop) will continue to use that method and will not be considered for extended transportation services. It should be considered only if the student happens to be in a situation where a bus route is already available and convenient.

Personal Vehicles: This option is for a parent/guardian/student that *has a personal vehicle*. Persons transporting the student must have a valid driver’s license and automobile insurance for the car being driven. Payment to the person providing the transportation will be in the form of a *pre-loaded gas card, the amount is determined by the program and based on attendance. The amount is subject to change based on the current cost of gasoline.*

School Buses: School bus service is rarely a reasonable option since it is usually the most involved, most expensive, and least flexible option. Temporary changes to bus routes tend to negatively affect other students/schools too seriously to be implemented effectively. If a student is on an IEP (Individualized Education Plan) with transportation writing into it, please let your Educational Liaison know.

OUR MISSION: QUALITY EDUCATION FOR ALL
