Mike Craig, Director of Schools

Stewart County Schools Migrant Students Procedure

All students, both new to Stewart County Schools and returning students, are asked to complete the State of Tennessee Occupational Survey Form upon registration. This form indicates whether the and/or his/her parent(s) works in certain industries and have moved within the last three years. If so, the form is sent to the Migratory Students liaison at Central office. The form is uploaded to the state's secure Migrant Education Program website. Staff from the Migrant Education office verify whether a student qualifies as a migrant; students who qualify may receive additional support in and out of our schools and options for summer opportunities.
